

MB Docket # 04-233

If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, it would be most detrimental to me personally, and to many people that I know. It really, really lifts me up. It serves me as a resident of the local community.

K-Love is the only station that I listen to on my car radio and in my home. I really feel that, if it was taken off the air, it would be a big disservice to our community. They do so much to encourage people. I have been nourished so much by this station. They have the right music or talks that have really strengthened me, especially on days when every thing seems to be going wrong. They hit the spot.

The service proved by K-LOVE is in the public interest. There are many of us here who enjoy the music and services provided by K-LOVE. Even in small towns (where my daughter lives) where limited reception limits availability, K-LOVE is received and enjoyed by so many people.

What is most the amazing thing about our society is that the “unbelievers” seem to be a vocal majority and just seem to rule just about everywhere. Just when will the “believers” have a chance? It just seems that we do not get “a fair shake” when it comes to anything about rules and regulations.

This is one voice which is urging you to not limit or eliminate K-LOVE’s presence in the broadcasting world by supporting something called “Localism campaign.” The wholesome values with a positive and encouraging impact on communities all across America are also vital to my peace of mind. They minister to so many peoples needs across this nation.
